NOTE - Before submitting your cards for grading, they will first go through our screening and inspection process, where our team will provide an honest assessment and recommendation—either to proceed with grading or to pass and return the card to you. From there, the final decision is yours, and you're welcome to move forward with grading even if it's against our recommendation.

NOTE - All cards will be submitted via bulk; should any card incur an upcharge, we will contact you to arrange the necessary additional payment.
